Re: Weekly Report

- Chapman's Place Community Partnership for Neighborhood Development has been executed in the amount of \$179,500.
- Work continues on the Neighborhood Development Area application. We are still waiting for the mapping. I have attached the cover letter for review.
- We are running out of commercial spaces. After running down a few buildings in town it would appear that we have only two vacant commercial spaces in the Village.
- I have begun the five year grant lookback and will send the spreadsheet over to Ryan for the TA items on road grnats.
