Re: Weekly Report

- There should be consideration of the Village Trust Initiative grant, between \$200-450k. Peter was thinking it could be a good funding stream for the riverside recreation walk with a possible tie in to a septic landing for community septic. Due date is 24th of May so we have some time but we need a rather specific project and program to articulate.
- Vtrans Bicycle and Pedestrian Grant for 2024 has been announced. I have attached the letter. A workshop is scheduled for May 15 10-1130. We are looking at complications on Main Street but this may be good funding for a Lake Morey Road project.
- Application for a commercial addition of 2400 square feet to Wings Market will be scheduled for May 22.
- Issued permit 24-Z-11 for the change in use for the Gryphon Barn project. The conditional use and site plan were approved by DRB with standard conditions, permits and approvals final on May 24th.
- Issued permit 24-SUB-02 to Eric Tyler which I had erroneously misnumbered last week. This subdivision will put a unit of family housing into the market.
